

## WE ARE PLAN.NET

**Plan.Net** is one of the largest independent digital agencies in Europe and is represented at more than 25 international locations, including Amsterdam and Brussels.

Founded as a subsidiary of the Serviceplan Group in 1997, **Plan.Net** now handles - always following its own philosophy of “creating relevance” - all aspects of digital, interactive and integrated communication, from campaigns, websites, web portals, media buying and planning, as well as social and search engine marketing, through to mobile advertising and the development of apps for all mobile devices.

The expertise and communications solutions provided by **Plan.Net** are characterized by creativity, innovation and media and technical excellence - innovative and effective tools and systems are used.

**Plan.Net** is looking for a Freelance front-end developer to reinforce his technical team.
